ANNUAL VACCINE RECOMMENDATIONS:

Distemper vaccination: Distemper, Adenovirus 2, Parainfluenza, Parvovirus – Required vaccine. Covers for many of the contagious diseases of dogs. Boostered in 1 year, then repeated every 3 years

Rabies Vaccination: Required by law – Boostered in 1 year, then repeated every 3 years

L4 Vaccination: Leptospirosis – This vaccinates for a bacteria that is spread via wild animal urine and can be found in all bodies of water. Boostered Annually (Can be included in the distemper vaccine)

*** Bordatella Vaccination:** Kennel Cough – Boostered annually based on risk (boarding, traveling, grooming, etc)

*** Lyme Vaccination:** Recommended annually based on risk (tick exposure)

* Optional Vaccine, chosen based on animal's exposure
